## Important Safety Information for Patients Taking Zydelig<sup>®</sup>

There are serious risks to understand when taking Zydelig.

Be certain to get regular blood tests as scheduled by your doctor.

Also, if you experience any of the following symptoms, you should immediately call your doctor and seek emergency medical care.

These symptoms include:

- Stomach (abdominal) pain or swelling
- Persistent or worsening nausea or vomiting
- Severe diarrhea
- Dark urine color
- Bloody or tar-colored stool
- Shortness of breath, difficulty breathing, or wheezing
- New or worsening cough
- Persistent fever (temperature over 101°F)

Remember! Call your doctor and get emergency medical care right away if you have any of these symptoms and **show this card** to any doctor involved in your care.
